PROJECT PORTFOLIO

1. Learn IT

"Learn IT" is a comprehensive platform designed for all students to connect, form study groups, and collaborate on assignments. Post your queries, get help with homework, and find support for tutoring and projects—all in one place.

Our App is the ultimate study tool for students, offering a platform to connect with peers, form study groups, collaborate on assignments, and streamline the learning process.

Home Page
On the homepage, users can post queries about homework, tutoring, and projects, while interacting through comments to provide additional assistance and support.

Log-in & Sign Up Page
Users need to sign up first by providing their email, desired password, first name, last name, and birthdate. Once all required information is entered, they can click submit to create their account and proceed to log in.

Profile Page
On the Profile page users can upload their profile picture, edit personal details, and add a bio and about section to showcase their unique qualities.

2. Enrollment System

This system uses Laravel to interact with a PostgreSQL database and Java RMI for remote communication. PHP within Laravel efficiently manages server-side tasks, simplifying student registration and course management. The design ensures that the system is reliable, efficient, and easy to use.

Inspiring message

In the journey of life, challenges may arise like storms on the horizon, but remember, within every storm lies the potential for growth and transformation. Embrace the struggles as opportunities to strengthen your resilience, courage, and wisdom.

3. Personal Website

A personal website created using HTML, CSS, and a CSS framework is a digital platform designed to serve as an online introduction and hub for an individual. This web page showcases the individual's identity, achievements, skills, projects, and any other relevant information. The combination of HTML and CSS allows for structuring and styling the content, while the integration of a CSS framework enhances the design, responsiveness, and overall user experience of   the page
